DSAAA Bidder's Conference Recap regarding Title III RFP

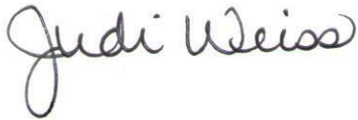

Q. What are the cost share obligations for obtaining funding?

A. A cost share plan must be submitted with the application in coordination with ACL guidelines for Title III funding. Bottom line is that all participants must be given the opportunity to contribute to the program for which they are receiving services.

Q. We offer gift certificates to caregivers to enjoy such things as massages, haircuts, etc. during the time they are receiving respite from another provider. Where would that fit into Title III?

A. Incentives are allowed by ACL to increase participation only for programs that provide respite as a part of their normal program services. In the case of this question, if the provider does not offer respite services as one of their programs, this would not be able to be funded by Title III dollars and would be better suited for a grant from an organization such as the United Way, etc.

Sincerely,
