BRAIN INJURY BASICS:
Introduction to Brain Injury

Wednesday, October 25
1:00 pm
This is an online event

Participants will learn about:
- Basic facts about the brain and brain injuries
- Living with a brain injury and its effects
- Information on brain injury resources
- Information on fall hazards for the elderly
- Fall Prevention strategies
- Symptoms of a potential brain injury and stroke
- Actions to take when brain injury is suspected

ABOUT THE SPEAKER:

Alec Wendelboe, BSNS, Education and Community Outreach Manager, MN Brain Injury Alliance. Alec received his Bachelors of Science in Neuroscience from Hamline University and has experience working with the brain injury community through Case Management services and the Wesley and Lorraine Arts Cognitive Neuroscience Center.
